About

Hi, I'm SAIFUDDAULAH ALFARABI I'm an active student of the Department of Software Engineering, at BINA SARANA INFORMATIKA UNIVERSITY. I really like things in the field of IT and also Design. In creating a website, I use the CodeIgniter framework with PHP language and the CSS framework, namely bootstrap. To use the Java language andto create a mobile application am currently learning the Flutter framework. for graphic design I use Photoshop, Figma, Illustrator and also Canva. Thank You
